**RETAIL SALES**

Fine Art reproduction in the form of PAPER or CANVAS prints can be made from the original oil painting. This is a classy way for your clientele to acquire a captured view of a beautiful portion of your landscape.

**Beginning the commission process for your signature hole**

The artist will come to your property at your request. Groundwork to experience the mood of the location is necessary for a premium reproduction. This preliminary work takes about two to three days. Turn around time for the original is approximately three months. There is a consulting fee to confirm the project. See summary of costs.

**PRECISION and SATISFACTION**

Our mission is to please the commissioners who have invested in the process of the fine art rendering of their signature hole. An exceptional painting depicting your beautiful landscape will be presented in an exquisite frame. Excellent reproductions representing the original oil painting can be a part of the commission process. Because of your investment in this one of a kind reproduction, we will not be satisfied until you are!

*We offer a full service of custom framing and drop-shipping to your clients.*
