Friends, we still have a Way to Go...

MEDICAL FUNDRAISER FOR ARTIST TURNINGBEAR MASON

TurningBear has been a professional Artist for 45 years. In 2018 he suffered a stroke that required that he transition from using his primary right hand to his left.

In September 2022, TurningBear had an adverse reaction to medication that damaged his heart and lungs. His doctors have recommended a special advanced therapy that restores damaged tissue and a device that will assist with the pumping mechanism of his heart. Insurance will only partially cover the therapies. Currently he's in rehab for his Heart and Small Bowel Resection.
